Worksheet for Comparing Costs to Financial Resources 2010-2011

Financial aid is based on "Cost of Attendance" budgets. The Cost of Attendance example below is one semester for a full-time, undergraduate students "not living with parents." Your actual costs will vary depending on your semester courses, major, and living choices.

Estimated Direct Costs	Idaho Resident	Non-Resident	Your Costs	Your Financial Resources	Amount
Student Fees*	\$2,650	\$7,378		Scholarships	
SHIP insurance (\$787)					
Books	\$ 594	\$ 594		Grants	
Room & Board	\$3,510	\$3,510			
<i>Total Direct Costs</i>	\$6,754	\$11,482		Student Loans	
Indirect Costs					
Miscellaneous Personal	\$1,148	\$1,148		Parent PLUS or Alternative loans	
Transportation	\$ 916	\$1,064		Out of Pocket	
<i>Total Costs</i>	\$ 8,818	\$13,694		<i>Total Financial Resources</i>	
<i>Difference between Your Costs and Your Financial Resources =</i>					

* Exact amount of fees will be higher if you have lab or workshop fees, new student curriculum fee, private music lessons, overload fees and such.

Credit Requirements for Aid

- Pell Grant 1 – 12 or more
- ACG & SMART grants* 6 – 12 or more*
- Idaho Promise 12 credits
- Perkins Loan* 12 credits*
- Ford Direct Loans 6 credits
- Work-study 6 credits
- PLUS Loans 6 credits
- Scholarships 12 credits

* Funds available after the 10th day of classes

Credit Load Considerations

- # of credits needed for type of aid offered
- Future eligibility for aid depends on you passing at least 75% of your classes
- Pay a flat rate for fees for credits loads between 12 and 18 credits
- Maximum lifetime loan limits for undergrads
 - \$31,000 for dependent students (est. 4.5 years)
 - \$57,500 for independent students (est. 5 years)

More Work? or More Credits?

- Save time and money on student fees!
 - Difference passing 12 credits vs. 18 credits = **\$14,988+ savings in student fees**
 - Difference passing 12 credits vs. 18 credits = starting your new career **2 years earlier**
 - On average college graduates earn \$22,000+ more each year than high school graduates
- Example: graduating 2 years later may cost you \$58,900+ in lost salary and extra student fees
