

Rules and regulations governing parking are in effect 24 hours per day, 7 days a week, 12 months a year unless otherwise specified.

Permit holders may be asked **not to park** in the BSU lots when events are scheduled.

Visitors and Guests:

Parking accommodations vary according to location and duration needs. Visitors to the University must exercise options for parking as set forth in this document. Campus visitors must comply with all University traffic and parking regulations and shall be responsible for such compliance by users of their vehicles.

Day parking permits are available for those who wish to utilize parking spaces for longer periods than easily accommodated by parking meters. Purchase of these parking permits allow parking in designated areas for specific dates, as issued.

State Handicap Placards Visitors with a State issued handicap permit may park at any meter and in the marked handicap spaces in the Brady and Lincoln Parking Garages. They are required to pay for their time in the Parking Structures. Vehicles without a BSU issued Handicap Permit are not allowed to park in other handicap areas.

Metered parking spaces

are located throughout campus for use by anyone (except those whose parking privileges have been revoked). Regulations governing their use are in effect 24 hours a day, 7 days a week, 12 months per year, and those who park in metered spaces must pay for time used. Tickets will not be excused for non-payment or expired meters. Meters grant time only up to the maximum time posted on them one-half, one, or two hours and parking attendants do not complete patron coin deposits.

It is asked that malfunctioning meters be reported to Parking Services at the time of failure. Notes will not be accepted. Meter citations are canceled only if the meter is confirmed to have malfunctioned. Excuses of arriving late, not having coins, or having put money in the wrong meter are not considered valid excuses for citation cancellation.
