

## Parking Maintenance Update.

Parking lot maintenance is well underway. We encourage all those who drive to campus, to watch for our warning signs at the entrance of the parking lots, warning parkers of lot closures for repairs. A list of lot closures can be found on the Parking Services Website, and is updated weekly.

-Parking is excited to announce that the Liberal Arts parking lot, next to the Special events center is now open for use.

-The Administration Visitor Parking lot will be closed on the evening of June 15th- June 21st. The lot will be paved and will be repainted. Those with Administration lot permits, will be allowed to park in the Liberal Arts parking lot, or the Library lot. Hourly parking will be available in the Parking Structures. Payment machines are available on each level. Parking rates are \$1 per hour, exact change is required.

JC Porter, with Parking and Transportation, received his CPP certification last month from the National Parking Association. JC is the fifth member of the Parking and Transportation team to receive this national certification. We extend our congratulations to JC for a job well done.
