

DEPARTMENT OF PARKING AND TRANSPORTATION SERVICES

PURPOSE: The goal of the campus parking program is to expedite the safe and orderly conduct of University business and to provide parking facilities and transportation solutions in support of this function within the limits of available space.

PARKING

I. Policy

A. Students, staff, and faculty may purchase permits/decals for parking on campus. Permits/decals may be purchased through the Parking and Transportation Department. Permits are to be displayed either from the rear view mirror or on the driver's side of the dash so that all information is visible. Motorcycle decals are to be affixed on the rear of the motorcycle in a visible manner.

Designated parking lots of the Boise State University campus will be reserved. Reserved permits may be purchased at the Parking and Transportation Department at designated times and are available to students, staff, and faculty on a first-come, first-served basis. Parking and Transportation Services will also manage "wait lists" for reserved permits in some lots. Faculty, staff, and students can be added to a wait list by contacting the Parking department.

General parking permits may be purchased through the Parking and Transportation Department. General permit parking is available in the unreserved portion of the Towers parking lot, the west side of the Stadium parking lot, and general permit designated campus roads and parking lots.

B. No permits/decals will be issued without a completed vehicle registration card. Accurate information on the vehicle registration card must be supplied at the same time the permit/decals is purchased. All vehicle registration cards are maintained on file in the Parking and Transportation Department.

C. The Parking and Transportation Department does not set policy or rules and regulations for the parking program on the campus of Boise State University. The function of this department is to efficiently operate, manage, and enforce the parking rules and regulations as set forth by Boise State University. Furthermore the Parking and Transportation Department is charged with spreading the costs of the parking system among all the users of the parking system. A complete set of parking regulations can be found on the website for Parking and Transportation Services. Any comments, concerns, or recommendations concerning the parking program should be submitted (in writing) to the Parking and Transportation Department. The department will then present your comments to the University Administration and the Parking and Transportation Advisory Committee for their consideration. Changes of parking regulations are made by the University Administration upon recommendation from the Parking and Transportation Advisory Committee.

TRANSPORTATION

The Parking and Transportation Department is responsible for the administration, management, organization, coordination, and marketing of the Campus Transportation Program. This includes access to City Buses, the Campus Shuttle System, and all other forms of alternative transportation. All questions concerning the Campus Transportation Program should be directed to the Department of Campus Safety.
