

Program Development Form – M.S. Raptor Biology

Directions: This form should be completed during the student's first semester in the graduate program, ideally during the first committee meeting. The form outlines the student's anticipated academic progression through the graduate program. The outline is not cast in stone and can be modified as warranted; however, the major advisor and supervisory committee should be consulted regarding any changes. Students should note that some graduate courses are offered in alternate semesters or years, possibly only once during their tenure in the program. Careful completion of the Program Development Form will ensure that students receive the classroom instruction they desire.

Name: _____ **ID#:** _____ **Email:** _____

Major Advisor: _____

Committee Members: _____

Provisional Status - What stipulations are required to move you to regular status?

Anticipated Completion Date: _____

Course of Study:

Required Courses

B601 Biometry (4 credits)

B605 Applied Raptor Biology (2 credits)

B606 Raptor Ecology (3 credits)

B598 Seminar or B561-567 Advanced Topics (1 credit)

B598 Seminar or B561-567 Advanced Topics (1 credit)

B593 thesis (6 credits)

Anticipated Semester/Year

Transfer Credits (9 maximum)

Date Completed

Elective Credits (13, minus transfer credits)

Anticipated Semester/Year

Note: Pass/Fail, workshop, and practicum/internship credits may not be used to fulfill graduation requirements.

Student's Signature and Date: _____

Major Advisor's Signature and Date: _____

Committee Member Signatures: _____
