[☐] **General Consent.** Medical evaluation, diagnosis and treatment; diagnostic services including lab tests or radiology procedures; prescription and administration of medications; counseling; and any other health care services as defined in I.C. § 32-1015 deemed reasonably necessary and appropriate by the treating Provider. This consent shall constitute a "blanket consent" within the meaning of I.C. § 32-1015(4)(a) and no further consent is required to authorize such health care services.

or

[☐] **Consent for Specific Care** [Describe]. _____

3. **Information.** The Provider has explained the nature of the proposed health care services, alternatives, and their related risks and benefits, or I have waived my right to receive such information. I have had the opportunity to ask questions and all my questions have been answered to my satisfaction or I have declined to ask such questions. If I require additional information concerning the health care services, I will contact Health Services (HS) or the Provider to discuss such services. I understand that the practice of medicine is not an exact science and no promises or guarantees have been made nor can they be made to me concerning the outcome of the health care services.

I understand that if I am not present in cases of emergency and/or when treating major medical illnesses or injuries, Health Services (HS) will attempt to obtain my consent via telephone. I also understand that in such cases where Health Services (HS) has been unable to contact me, and in the provider's opinion a delay in initiation or provision of treatment would endanger the health or physical well-being of my son/daughter, Health Services (HS) will render the necessary emergency medical care to my son/daughter without my consent.

4. **Financial Responsibility.** I agree that I am ultimately responsible for payment for the health care services rendered to the Minor Patient and agree to comply with Health Services (HS) Financial Policies. I will promptly pay any co-payments, deductibles, or other amounts not covered by applicable insurance or third-party payor program. I will cooperate with Health Services (HS) in obtaining reimbursement for the health care services from any third-party payor, and hereby assign to Health Services (HS) the right to submit claims for payment to third-party payers and retain such payments. To the extent allowed by law, I will remain responsible for any amount not paid by any third-party payor for health care services, including but not limited to costs relating to infectious, contagious or communicable diseases within the meaning of I.C. § 39-3801. If the Minor Patient's account becomes delinquent, I agree to pay interest and fees according to GROUP's Financial Policies, including but not limited to reasonable costs of collection, collection agency fees, attorneys' fees, and court costs.

5. **Counseling Services/Mental Health Provider Credentials.** All of the providers at Health Services Counseling Services are qualified professionals. The senior staff consists of psychologists, counselors and social workers at the master or doctoral levels with the appropriate credentials and/or licensure. Our staff also includes trainees; this may include Counseling Graduate Trainees and Social Work Trainees, who are working toward completion of their graduate degree. All of the trainee staff are supervised closely by a Counseling Services senior staff Provider.

6. **Client Rights.** The providers are required to adhere to the professional code of ethics adopted by the state profession board. You have the right to file a complaint without retaliation in writing to the Idaho Division of Occupational and Professional Licenses located at 11341 W. Chinden Blvd. Building 4, Boise, ID 83714, or by phone at 208-334-3233. IBOL Rule 525 for counselors stipulates that you be informed that the relationship between client and counselor will always be of a professional nature only and that any sexual or inappropriate behavior will not be permitted at any time, and should be reported to the board.

7. **Benefits and Risks of Counseling and Assessment:** Benefits of counseling may include but are not limited to: an improved ability to relate to others; a clearer understanding of self, values and/or goals; increased academic productivity; and an ability to cope with everyday stress.

While benefits are expected from the counseling process, there may be periods of increased anxiety or uncertainty, which may affect relationships, jobs, and/or understanding of oneself. It is impossible to predict the extent to which one might experience these changes. Your son/daughter and their provider will work together to maximize the benefits of the counseling process.

Benefits of assessment may include but not be limited to: a clearer understanding of self, values and/or goals, increased academic productivity a clearer understanding of strengths, limitations and strategies to maximize potential. Although benefits are expected from the assessment process, it is impossible to predict the outcome of the assessment. It is possible that a client will not receive the diagnosis they are seeking, or may receive a diagnosis they are not expecting. It is also possible that we will not be able to offer a specific diagnosis or answer any problem(s) through the assessment process. Your son/daughter and their provider will work together to maximize the benefits of this process. Participation and payment for an assessment does not guarantee any results.

8. **Confidentiality.** In compliance with applicable Federal Laws and regulations along with Idaho state statutes, all the information obtained during counseling sessions will be kept confidential as required by law. Information gathered during a counseling session will not be revealed to anyone outside of Health Services without proper consent except in the following situations where disclosure is required by law:

- Where there is reasonable suspicion or report of abuse to vulnerable populations, including children, elderly persons, and individuals who are unable to advocate for themselves.
- Where one presents serious and foreseeable harm to oneself or others.
- If we receive a subpoena, court order, or as part of legal proceedings which may include but is not limited to legal complaints filed by you or your son/daughter against their provider.
- In specific cases of law enforcement emergency for national security issues.

In rare circumstances where the University receives report of concerning behavior that could put ones welfare or the safety of others at risk, University Health Services may disclose to the C.A.R.E. Team information about your son/daughters appointment-attendance history; no other information about counseling sessions will be disclosed.

9. **Assent for Minors.** As a general rule, your son/daughter's provider will not talk to you as their parents/guardians about what is discussed in counseling without their knowledge. If their provider believes there is something that you, as parents/guardians need to know, s/he will encourage them to tell you and together they can address ways for them to do so. There may be circumstances where they choose not to tell you alone, in which case, their provider will then assist them in a conjoint session with you to discuss needed information.

Their provider will not share their information outside of Health Services (HS) without their knowledge. It is unlikely, but possible, that a situation may arise in which you and their provider both believe it is important for to share information with someone, and they do not agree. In this case, their Provider will use his/her professional judgment on whether to share information.

I have read, understand, and agree to the foregoing, and I understand and acknowledge that Health Services (HS) and/or its Providers will render health care services in reliance on this consent.

Teletherapy Informed Consent Form

I hereby consent to engage in teletherapy counseling services with Boise State University Counseling Services. I understand that "teletherapy" includes the practice of health care delivery, diagnosis, consultation, treatment, transfer of medical data, and education using interactive live audio, video, or data communications. I understand that teletherapy also involves the communication of my medical/mental information, both orally and visually, to health care practitioners located in the state of Idaho.

I understand that I have the following rights and understanding with respect to teletherapy:

- 1) I have the right to withhold or withdraw consent at any time without affecting my right to future care or treatment nor risking the loss or withdrawal of any program benefits to which I would otherwise be entitled.
- 2) I understand that my clinician is only currently licensed or is a trainee in certain states, and therefore, I will need to attest that I am physically located in one of these states that my clinician is licensed in for each teletherapy session.
- 3) The laws that protect the confidentiality of my medical information also apply to teletherapy. As such, I will need to attest that I am in a private, **non-public**, secure place, and alone for each of my teletherapy sessions.
- 4) I understand that the information disclosed by me during the course of my therapy is generally confidential.

However, there are both mandatory and permissive exceptions to confidentiality, including, but not limited to reporting abuse **of vulnerable populations**; expressed threats of violence towards an ascertainable victim; **expressed threat to harm or kill self**; and where I make my mental or emotional state an issue in a legal proceeding **or the involvement of law enforcement**.

I also understand that the dissemination of any personally identifiable images or information from the teletherapy interaction to researchers or other entities shall not occur without my written consent.

- 5) I understand that there are risks and consequences from teletherapy. This includes, but is not limited to, the possibility, despite reasonable efforts on the part of my counselor, that technical failures could disrupt or distort the transmission of my medical information; unauthorized persons could interrupt the transmission of my medical information; and/or unauthorized persons could access the electronic storage of my medical information. **In the event of a technical failure, I will have a contingency plan in place with my counselor for a back-up mode of communication to close our therapy session and discuss next steps.**

In addition, I understand that teletherapy-based services and care may not be as complete as in-person face-to-face services. I also understand that if my psychotherapist believes I would be better served by another form of psychotherapeutic services (e.g. face-to-face services) I will be referred to a psychotherapist who can provide such services in my area. **Examples include, but are not limited to, crisis situations, severe and persistent mental illness, and medication management.**

Finally, I understand that there are potential risks and benefits associated with any form of psychotherapy, and that despite my efforts and the efforts of my psychotherapist, my condition may not be improve, and in some cases may even get worse.

6) I understand that I may benefit from teletherapy, but that results cannot be guaranteed or assured. I accept that teletherapy does not provide emergency services. During our first session, the clinician and I will discuss an emergency response plan. If I am experiencing an emergency situation, I understand that I can call 911 or proceed to the nearest hospital emergency room for help. **Examples of emergency situations include, having thoughts of hurting or killing either another person or myself, having hallucinations, being in a life-threatening or emergency situation of any kind, having uncontrollable emotional reactions, or being dysfunctional due to abusing alcohol or drugs.**

I acknowledge I have been told that if I am having suicidal thought or making plans to harm myself, I can call the National Suicide Prevention Lifeline at 1-800-273-TALK (8255) for free 24 hour hotline support.

I understand that my counselor may ask me to have a ‘collaborator’ on my premises, who is available to contact local authorities in an emergency. A collaborator can be family or friend. My counselor and I will determine who will be designated as my local collaborator, obtain their contact information and consent, discuss their responsibilities, and circumstances for contacting them.

7) I understand that I have a **right to request access to portions** of my medical information and copies of medical records in accordance with Idaho law and HIPAA privacy and security rules.
