Notes:

1. You may use test scores or complete a prerequisite course for placement.
2. You do not need to take the most advanced class for which you qualify, but you need to complete the appropriate math path for your major--see your catalog.
3. Your department may recommend a specific math path. Check with your advisor.

Accuplacer Math Exam - <https://www.boisestate.edu/testing/placement-other-exams/accuplacer/>

If you do not have a standardized test (ACT or SAT) score or transfer math credit, you will need to take the Accuplacer for placement purposes. You may also elect to take the Accuplacer exam if:

- You think you may be able to place higher than your current placement, especially if you are going into a major with a greater emphasis on math, such as engineering, business, health sciences, or natural/physical sciences.
- You have not taken a math class in a while and feel uncertain about how much you remember and can apply in class.

If you are unsure about whether taking the Accuplacer exam is the best option for you, please check with your advisor.
