

# ENRICHING THE CLASSROOM EXPERIENCE *With* GLOBAL COLLABORATION PROJECTS

## WHAT ARE GLOBAL COLLABORATION PROJECTS?

A collaboration between the Center for Global Education and the faculty member.

GCPs connect a Boise State course with a course from one of our global partner universities centered around a specific Project. GCPs infuse global perspectives into the course and allow students to gain multiple, global perspective on a topic.

## DESIGN THINKING ACROSS CULTURES

COBE Lecturer Christy Suciu (Boise State) co-created class with Jordan Srour (Lebanese American University) using GCP. Students were assigned on international teams to innovate and solve real world problems. Students gained global perspectives from three assignments and reflections from their peer assessments.

**BOISE**  
*Boise State University*

**CHRISTY SUCIU**

**BEIRUT**  
*Lebanese American University*

**JORDAN SROUR**

REAL-WORLD, CROSS-CULTURAL OPPORTUNITIES FOR STUDENTS.  
**FULFILLMENT UNIVERSITY'S**  
FOCUS ON INNOVATION AND GLOBAL IMPACT.

## GLOBAL PROBLEMS. LOCAL SOLUTIONS

COVID 19- SCHOOLS, NURSING HOMES & VACCINE  
SAFE AND AFFORDABLE DRINKING WATER  
RATIONING AND COST OF ELECTRICITY

TRAFFIC AND ROAD SAFETY  
WILDFIRES

**Impact**

*47 undergraduate students from Boise State*

*24 undergraduate students from LAU*

*Business, computer science, economics, electrical engineering majors*

*All students competed in the "COBE Innovation Challenge"*

*Funding from U.S. Embassy in Lebanon*
